SIMPLICITY AND RELIABILITY

*The new roller shutter door with pneumatic assistance **EASY^{UP}** is FRUEHAUF's brand-new innovation. It allows to securely eliminate any repetitive efforts.*

EASY^{up}

Easy of use

Opening and closing commands are placed on the rear frame and accessible from the ground.

Safety

The lock allows the doorlocking for a safe transport.

Reliability

The use of low-pressure cylinders grants users and materials safety.

When needed, it is possible to reverse to manual use as the balancer is maintained.

The new pneumatic roller shutter door **FRUEHAUF**

Autonomy

The roller shutter door **EASYUP** can be used without any truck. The additional air tank allows more cycles than usually needed between 2 operation of uncoupling and coupling.

Compatibility

The **EASYUP** is compatible with all heights of vehicles and all types of roller shutter doors for an easy **Retro-fit** on all vehicles with manual door.

Piek* Certification

As the **EASYUP** door works on low pressure and allows to parameter the working speed, it is compatible with the requirements of low noise emission, as it is operating under 60dB.
