

# CONTAINER CHASSIS

**FRUEHAUF**  
*Designed to last*

**The STANDARDS**

**The MULTI PURPOSE**

**The DEDICATED**

# LONGEVITY

## ROBUSTNESS

Forever, Fruehauf designs and manufactures vehicles which are recognised by the market for their robustness.

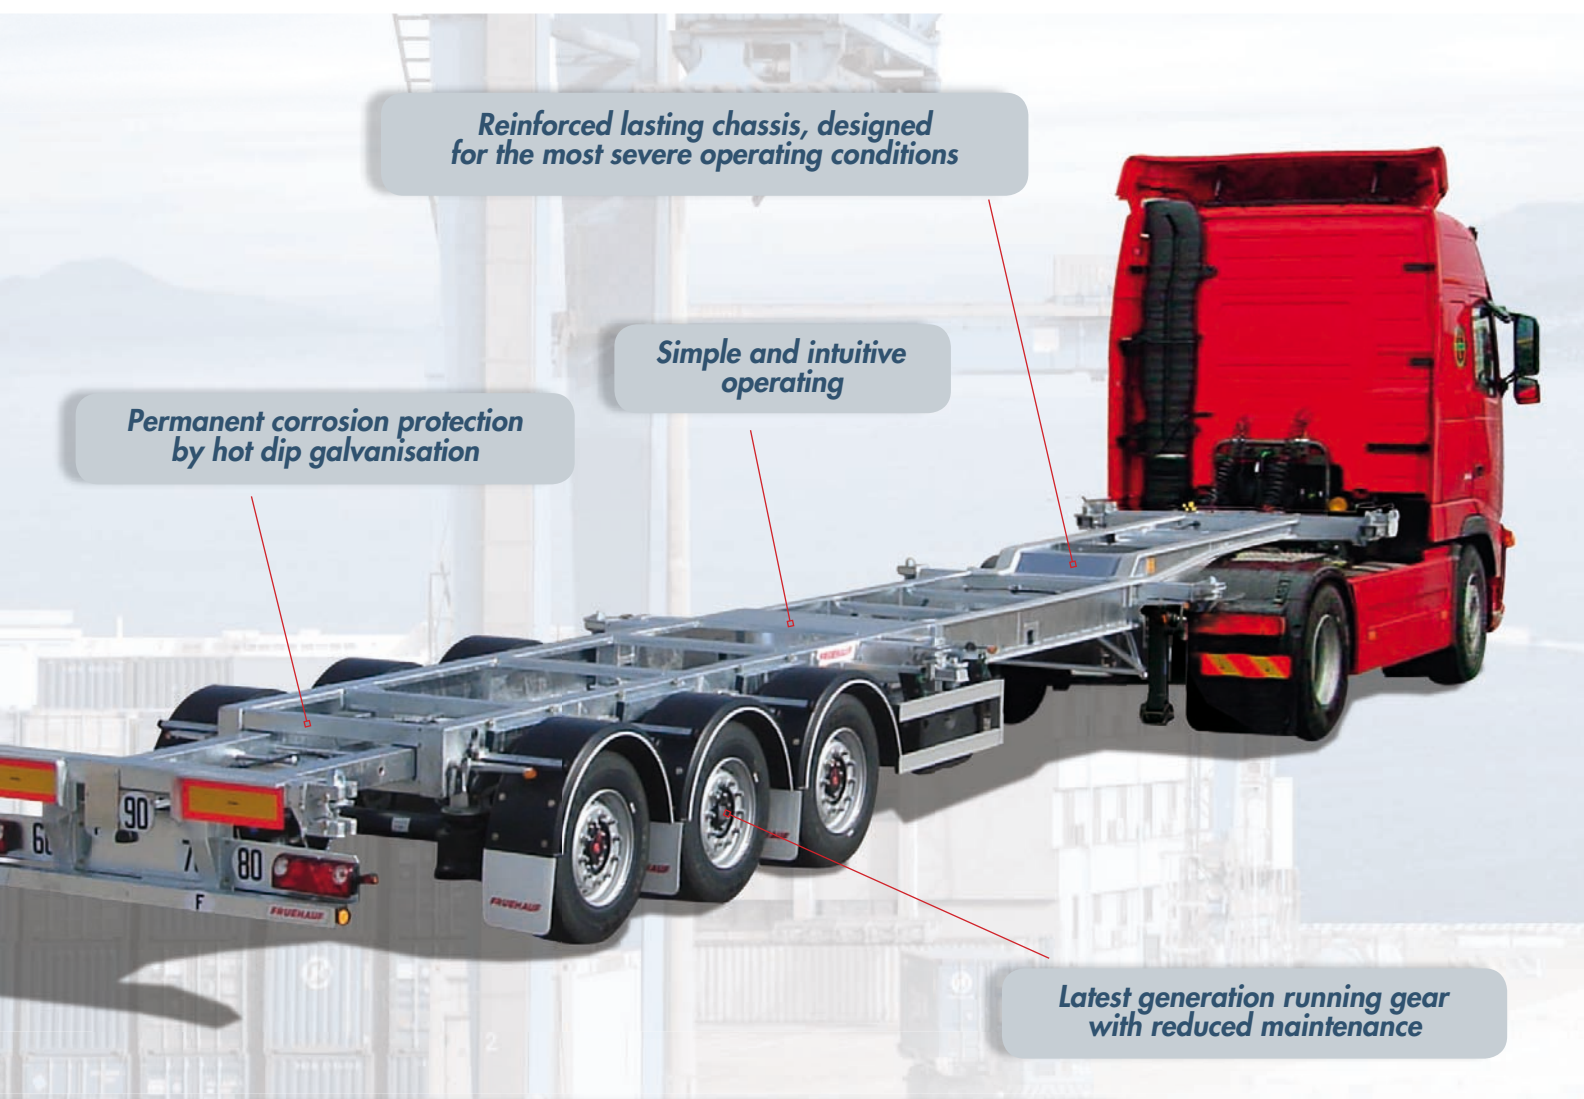

Our container chassis, with a fully welded skeletal structure are specifically adapted to intensive use and severe conditions.

# RELIABILITY

## SAFETY

Our vehicles are designed for maximum safety:

- Safety in road behaviour through the integration of the very last generation of running gears and of electronic driving assistance systems to improve the passive and active safety of the vehicle.
- Safety of the operators by ergonomically designed shapes, parts and accessories.

## ANTI CORROSION GUARANTEE THROUGH **HOT DIP GALVANIZATION OF THE CHASSIS.\***

Hot dip galvanization of a welded chassis structure is the most performing, the most durable and the most ecologic solution.

### **Advantages :**

- Permanent corrosion protection
- Protects all surfaces and all hollow structures
- Resists to impact, scratching and road grit

\* In option.

# THE COMPLETE MODEL RANGE FROM A LEADER

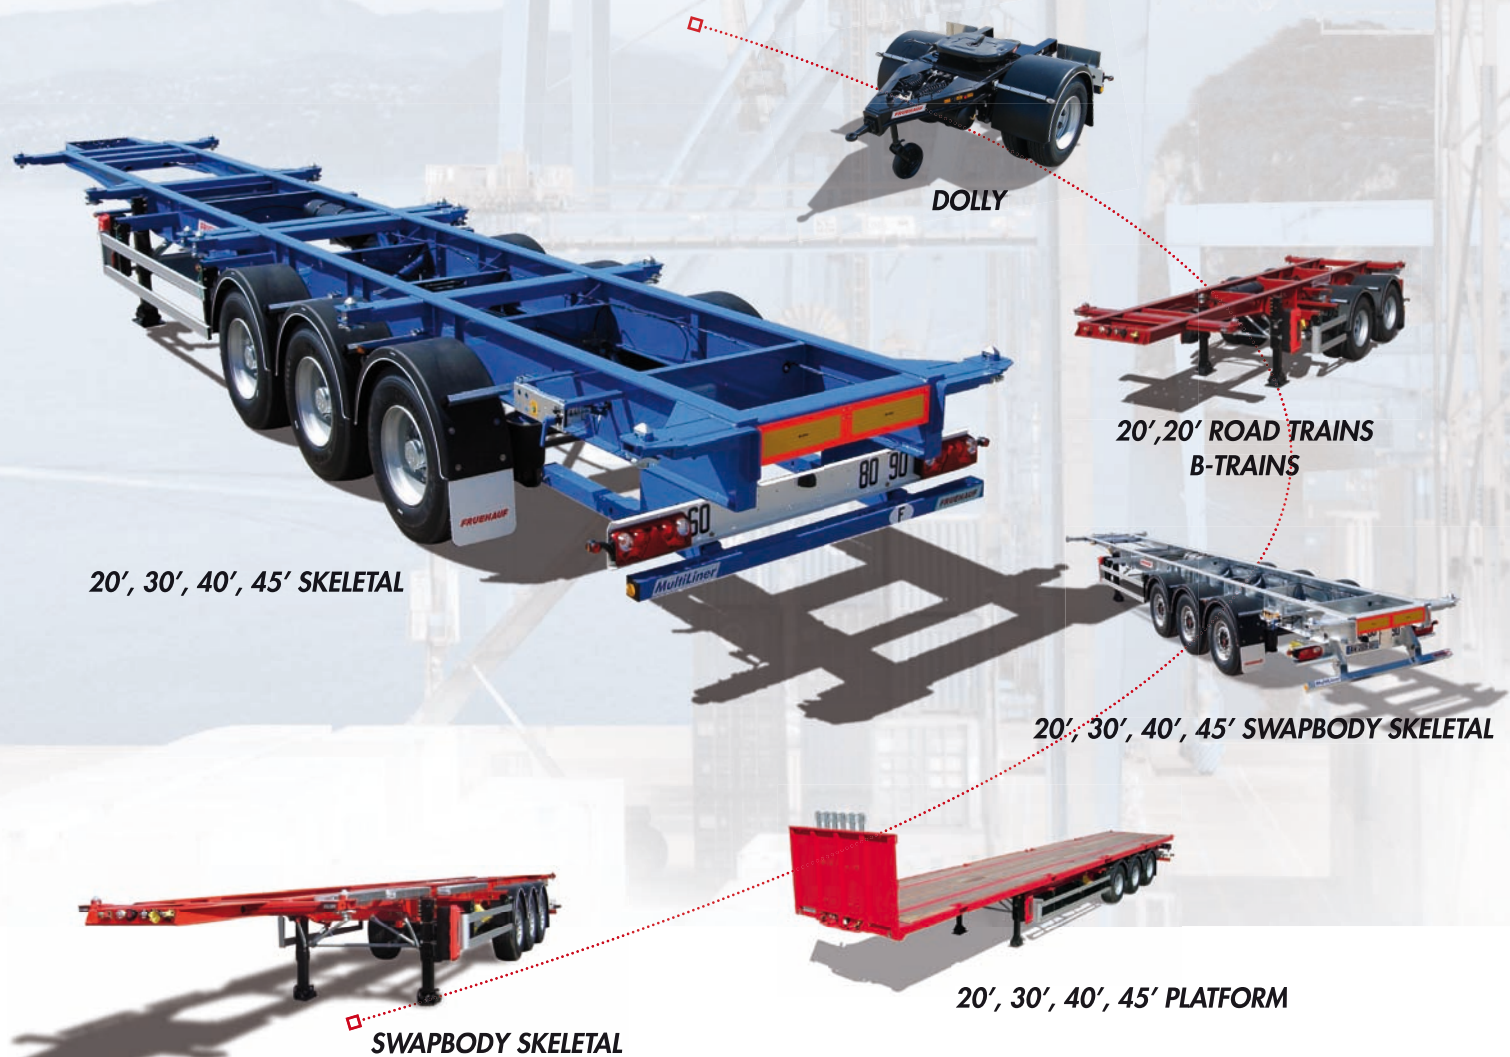

The range of FRUEHAUF container chassis offers all the different solutions for the transport of containers and swap bodies, from the very standard to the highly specialised.

Each model represents the ideal vehicle for the requirements of a constant transport flow of each model of container:

- Simple and easy to use
