# ExpressLiner

**FREIGHT TRANSPORT IN COMPLETE SAFETY**

**PARCELS**

**DISTRIBUTION**

**FULL TRAILER LOADS**

**LARGE VOLUME**

# ExpressLiner Range

The ExpressLiner is a van trailer perfectly adapted to freight transports in fully secured conditions and particularly for vulnerable loads such as: electronic equipment, medical products, wines and spirits...

The ExpressLiner range answers to all transport requirements depending on weights and volumes:

**Parcel delivery** : 2-Axle Medium Tonnage

**Distribution** : 2-Axle Maximum Tonnage

**Full trailer loads** : 3-Axle Maximum Tonnage

**Large volume** : MEGA

**Impact protection of the front wall by steel kick strip welded onto the chassis frame**

**Running gear, the top technology from the major axle manufacturers**

**Fully welded platform structure with I-beam cross bearers at a pitch of 400 mm**

## ROBUST

### *Designed to last*

The requirements of the transporters have largely changed these last years and have reverted back to a requirement of robustness, with no premature wear and no risk of standstill of the trailers. With vehicles exploited full time, immobilisations are extremely costly.

Since always, FRUEHAUF designs and manufactures vehicles of which the robustness is highly appreciated in the market. Our fully welded chassis frames, our sturdy floors and our strong body design are perfectly adapted to intensive and heavy duty use.

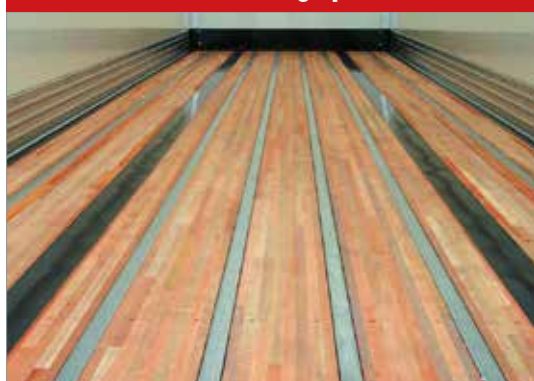

**Roof assembly insuring impact resistance and perfect water tightness**

**Reinforced door frame for frequent docking**

**Laminated hardwood floor 35 mm thick with steel omega profiles**

**Unique body assembly**

## SAFETY

The ExpressLiner range has been designed for maximum safety, around two major aspects:

- Safety of the vehicle operators using, or in touch with, the trailers, by the ergonomics of the components and by the adapted equipment.
- Safety in road behaviour by the integration of electronic driver assistance systems, increasing the passive and active safety of the vehicle.

**Adjustment to dock level  
inside the trailer**

**Automatic activation of  
the parking brake**

**Protection against  
reversing accidents**

**Tyre pressure  
automatically maintained**

## VERSATILITY

From industrial heavy loads to voluminous loads on a double deck arrangement, from long distance haulage to frequent coupling and docking : this diversity of utilisations requires perfectly adapted vehicles.

FRUEHAUF , the Van-trailer specialist, has developed a range of standards against each of these requirements : double deck installation, damage protection for the most severe utilisations, standard barn doors, reinforced door frames, standard roof or dedicated roof solutions.

### SIDE WALLS:

FROM SCUFF LINERS  
FOR HEAVY DUTY USE  
TILL DOUBLE DECK

**Reinforced scuff liner  
side wall protection**

**Double deck installation**

### REAR FRAME:

FROM BARN DOORS  
TO REINFORCED FRAMES

**Smooth barn doors**

**Reinforced barn doors**

**Reinforced frame  
and roller shutter door**

### ROOF:

FROM STANDARD  
TO DEDICATED  
SOLUTIONS

**Pre tensioned  
aluminium roof sheet**

**Translucent polyester**

**Smooth in plywood  
or insulated**

# ExpressLiner Range

## PARCEL DELIVERY

*2-Axle medium tonnage*

Specifically dedicated to the Parcel Delivery Trade:  
Medium tonnage running gear  
and reinforced rear frame for frequent docking

G.V.W.	RUNNING GEAR	INTERNAL HEIGHT	VOLUME
30T	2-Axle single mounted	2,70 m	91 m <sup>3</sup>

## DISTRIBUTION AND FULL TRAILER LOADS

*2-Axle maxi tonnage*

The ideal vehicle for distribution in urban environment:  
High payload capacity and economical  
maintenance as a result of 2 axles with twin mounted tyres

G.V.W.	RUNNING GEAR	INTERNAL HEIGHT	VOLUME
35 T	2-Axle twin mounted	2,70 m	91 m <sup>3</sup>

## DISTRIBUTION AND FULL TRAILER LOADS

*3-Axle*

Polyvalence in service of long distance haulage with traditional  
full trailer loads: Maximum payload,  
cargo securing equipment and damage protection of the body

G.V.W.	RUNNING GEAR	INTERNAL HEIGHT	VOLUME
39 T	3-Axle single mounted	2,70 à 2,80 m	91 m <sup>3</sup> à 94 m <sup>3</sup>

## VOLUMINOUS CARGO

*2-Axle and 3-Axle Mega*

Dedicated to lightweight voluminous cargo:  
Low Mega coupling height, maximum internal height

G.V.W.	RUNNING GEAR	INTERNAL HEIGHT	VOLUME
30 T 39 T	2-Axle MEGA 3-Axle MEGA	2,90 m	98 m <sup>3</sup>

# Functional and

Numerous optional accessories can be integrated in our vehicles to make usage easier or to adapt these to specific operational needs:

## ARRANGEMENTS

- Storage of the different accessories
- Securing of the freight
- Protection and additional reinforcements
- Handling of the freight

Steel light fitting plate

LED rooflamps

Raise & Lower valve inside

Coloured panels

Complete painting

## STORAGE AND CARGO SECURING

Pallet carrier

Document holder

Toolbox

Cargo securing rails

Double deck installation

Cargo retaining bar

# practical options

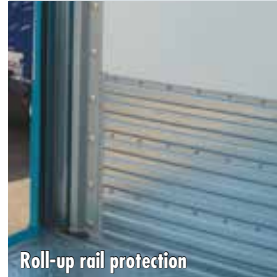

## REINFORCED PROTECTION

Reinforced coupling plate

Chequered steel crash plate

Roll-up rail protection

Doubled aluminium scuff liners

Reinforced steel scuff liners

Steel corner buffers

Roller buffers

Front wall impact lining

Ferry buffers

## ADDITIONAL EQUIPMENT

Info Centre

Brake pad wear indicators

Rim caps

Spare wheel carrier

Retractable taillift

# Services

Maintenance, repair, spare parts, used trailers and finance: FRUEHAUF assures you professional assistance and performing services.

## 500 Service Centres in Europe

### MAINTENANCE REPAIRS

Our network of 500 Service Centres in Europe gives you quick and efficient service on all types of vehicles in your vicinity.

To locate your nearest Service Centre:

**[www.fruehauf.com/centres-service](http://www.fruehauf.com/centres-service)**

### SPARE PARTS

The Spare Parts Department guarantees the supply of original manufacturers components, wear parts immediately available from your local Service Point, delivery within 24 hours of specific parts. Identification and ordering on line of all parts for vehicles up to 15 years old.

**[www.fruehauf.com/servicepro](http://www.fruehauf.com/servicepro)**

### USED VEHICLES

The used vehicle Department offers a wide choice of vehicles and the professionalism of a leader: complete information on the status of the vehicle, a procedure of intake control covering 30 points (chassis, tyres, brakes, suspension, body) , a specialised workshop to adapt the vehicle to your needs, an on-line offer.

**[www.fruehauf.com/occasions](http://www.fruehauf.com/occasions)**

### FINANCING

In close partnership with the larger finance institutions, our specialised Department will recommend the financing method adapted to your needs: Hire-purchase, Conventional credit, Financial lease or Operational lease.
